

No one made it to Santiago without the help of another - join us in supporting The Camino Documentary. This inspirational PBS film follows pilgrims from all over the world on the adventure of their lives; walking Spain's ancient 500-mile pilgrimage, the Camino de Santiago. Embark on a life-changing journey with these pilgrims as they attempt to cross an entire country on foot with only a backpack, a pair of boots and an open heart.

This documentary will only be finished with the help of people like you, so donate today or learn about other ways you can help. By joining us in the Camino's spirit of giving and sharing, it becomes your film, too.
